

DIFFERENTIAL EQUATIONS

Volume 26, Numbers 1-12, 1990

(A translation of *Differentsial'nye Uravneniya*)

Engl./Russ.

Volume 26, Number 1, January, 1990

PARTIAL DIFFERENTIAL EQUATIONS

Smoothness of a 2m-Parabolic Potential of a Simple Layer - E. A. Baderko	1	3
Basis of Certain Systems of Exponents, Cosines, and Sines - B. T. Bilalov	8	10
Structure of the Regularizers for Elliptic Boundary-Value Problems on the Plane - V. S. Vinogradov	14	16
Perturbations of Point Spectrum - A. A. Dezin	20	23
Stabilization of Solutions of the Cauchy Problem for Parabolic and Hyperbolic Equations - V. N. Denisov	26	30
Problems of Function Extensions Related to the Theory of Homogenization - V. V. Zhikov	34	39
Non-Local Boundary-Value Problem for the Two-Dimensional Stokes System - N. A. Zhura	45	50
Dirichlet Problem and Nonlocal Boundary-Value Problems for the Wave Equation - T. Sh. Kal'menov and M. A. Sadybekov	55	60
Solvability in the Class L_2 of a Problem with a Boundary Condition on the Characteristic for a Hyperbolic Equation with Order Degeneration - N. Yu. Kapustin	59	66
Some Results Related to the Cauchy Problem for Overdetermined Systems of Linear Differential Equations - M. V. Korovina	67	75
Order Exact Estimates for the Eigen- and Associated Functions of an Elliptic Operator and for Their Derivatives - A. S. Makin	77	85
Solution of the Tricomi Problem in Spectral Domains - E. I. Moiseev	83	93
Regularized Traces of a Differential Operator of Sturm-Liouville Type with Retarded Argument - Pikula Milénko	92	103
Uniqueness of Solutions in Some Nonlinear Inverse Problems of Hydrodynamics - A. I. Prilepko and I. A. Vasin	97	109
Model Nonlocal Problems for Elliptic Equations in Dihedral Angles - A. L. Skubachevskii	106	120
Boundary Properties of Integrals of Cauchy Type - A. P. Soldatov	116	131
Complex-Analytic Cauchy Problem in a Bounded Domain - B. Yu. Sternin and V. E. Shatalov	121	136
Unconditional Basicity of Root Vectors of Nonlocal Problems for Systems of Equations with Deviating Arguments - V. V. Tikhomirov	132	147

Volume 26, Number 2, February, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Properties of the Leading Sigma-Indices of a Triangular System and of Its Diagonal Approximation - E. A. Barabanov	139	187
Estimates of Attraction Domains of Stationary Solutions of Differential Equations of Frequency-Synchronization Systems. I - I. M. Burkin, I. S. Dzesov, and G. A. Leonov	152	205
Stability, with Respect to the First Approximation, of Systems with Time-Lag Depending Linearly on the Time - B. G. Grebenshchikov	159	214

Stability of Trivial Solutions of Some Classes of Functional-Differential Equation Systems with Time-Lag - I. Diblik	163	219
Some Applications of the Theory of Abstract Functional-Differential Equations. II - G. G. Islamov	167	224
Optimal Synthesis in a Smooth Linear Time-Optimal Problem - Yu. N. Kiselev	174	232
Modeling of Controls and Coefficients in Evolution Parabolic Systems - V. I. Maksimov	178	237
Bilateral Solutions of Linear Differential-Functional Equations - A. N. Murovtsev and A. D. Myshkis	185	246
Phase Spaces for a Class of Semilinear Sobolev Operational Equations - G. A. Sviridyuk and T. G. Sukacheva	188	250
Analytic Spectral Problems - M. V. Fedoryuk	195	258

PARTIAL DIFFERENTIAL EQUATIONS

Lorentz-Invariant Solutions of Pseudodifferential Schrödinger Equations - A. V. Aksenov and K. L. Samarov	204	268
Singularly Perturbed System of Elliptic Equations - V. F. Butuzov and A. G. Nikitin	207	271
Generalization of the Concept of Uniform Stabilization and Uniform Proximity of Solutions of a Cauchy Problem - K. V. Valikov	213	279
Extremal Properties of Solutions of a Class of Parabolic Systems and Their Applications - K. B. Sabitov	220	287
G-Compactness of a Class of First-Order Elliptic Systems - M. M. Sirazhudinov	229	298
Characteristic Problem for a Class of Second-Order Hyperbolic Systems with Type-Changes on Characteristics - S. S. Kharibegashvili	235	305

NUMERICAL METHODS

Variant of the Variable-Direction Method for the Solution of Multidimensional Mathematical-Physics Problems. I - V. N. Abrashin	243	314
Rate of Convergence of the Bubnov-Galerkin Method for Hyperbolic Equations - L. A. Zhelezovskaya, S. E. Zhelezovskii, V. F. Kirichenko, and V. A. Krysko	251	323
Method for the Numerical Solution of Integral Equations on a Random Mesh - V. M. Ivanov and O. Yu. Kul'chitskii	259	333

Volume 26, Number 3, March, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Stability Criteria for a Class of Differential-Equation Systems - N. E. Barabanov	267	371
A Quasilinear Boundary-Value Problem for which the Corresponding Homogeneous Problem is Nonsingular - S. A. Brykalov	270	374
Bounds of Attraction Domains of Stationary Solutions of Differential Equations for Frequency-Synchronization Systems. II - I. M. Burkin, I. S. Dzesov, and G. A. Leonov	276	381
Optimal-Control Method in an Extremal Problem on a Class of Solutions of the Levner-Kufarev Equation - A. Yu. Vasil'ev	280	386
Asymptotic Expansion of a Solution of a Singularly Perturbed Cauchy Problem, with Initial Values of the "Fast" Variables Unbounded with Respect to a Parameter - V. Ya. Glizer	285	393
Existence of an ε - β -Kernel for Dynamical Games of Fixed Duration - N. N. Danilov and G. V. Tomskii	292	401
Sector Method of Proving Lyapunov Instability - B. S. Klebanov	298	408
Complete-Controllability Theory for Nonstationary Linear Systems - S. A. Minyuk	303	414

Auxiliary and Central Indices in Linear Systems with Coefficients Perturbed by White Noise - Nguen Din' Kong	307	420
PARTIAL DIFFERENTIAL EQUATIONS		
Dirichlet's Problem for Poisson's Equation in Generalized Weighted Hölder Spaces - E. G. Guseinov	314	428
Gellerstedt's Problem for a Parabolic-Hyperbolic Equation in Three-Dimensional Space - T. D. Dzhuraev and Yu. P. Apakov	322	438
Solvability in the Large of a Reaction-Diffusion Equation System with a Balance Condition - Ya. I. Kanel'	331	448
D'Alembert's Representation and the Equidistribution of Energy - I. A. Kipriyanov and L. A. Ivanov	340	458
Asymptotics, Near the Boundary, of a Solution of a Singular Boundary-Value Problem for a Semilinear Elliptic Equation - V. A. Kondrat'ev and V. A. Nikishkin	345	465
Generalized Solutions of Some Degenerate Parabolic Equations - P. I. Mysovskikh	348	468
Smoothness Loss of a Solution of a Mixed Problem with a Directional Derivative for the Wave Operator - S. E. Pastukhova	356	478
Maximum Principle for Systems of Second-Order Mixed Equations - K. B. Sabitov	364	488
Averaging of the Prandtl Equation System - V. N. Samokhin	369	495
Estimation of the Growth of Solutions of Some Quasilinear Elliptic Inequalities - M. Kh. Khallaev	374	501
INTEGRAL AND INTERGRODIFFERENTIAL EQUATIONS		
Solutions of a Spatially Inhomogeneous Coagulation Equation with Particle Fractionation taken into Account - P. B. Dubovskii	380	508
Linear Integral Equations of the Third Kind in Weighted L_2 -Spaces. I - A. A. Kuleshov	384	514
Regularization of Volterra Integral Equations of the First Kind - A. Srazhidinov	390	521

Volume 26, Number 4, April, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Frequency Bounds of Hausdorff Dimensionality of Attractors of Nonlinear Systems - V. A. Boichenko and G. A. Leonov	399	555
Effective Sufficient Conditions for Uniform Local Controllability - L. I. Danilov and A. G. Ivanov	406	563
Singularly Perturbed Systems with Singular Manifolds and Isolated Stable Roots - E. G. Eroshkina	414	573
Vanishing Kneser Solutions of the Emden-Fowler Equations - N. A. Izobov and V. A. Rabtsevich	419	578
Perturbations Method for the Asymptotic Solutions of a Quasilinear Time-Optimum Problem - A. I. Kalinin	424	585
Frequency Criteria for the Existence of Periodic Solutions of Systems with Integral Relations - A. V. Megretskii	431	594
A Contribution to the Solution of Cauchy's Problem for an Infinite Differential- Equation System Describing Collision-Free Multiphoton Molecule Excitation - N. N. Rogovtsov	436	600
Construction of an Extension of a Control Problem with Integral Restrictions - V. P. Serov and A. G. Chentsov	442	607
A Nonlinear Third-Order Differential Equation - M. P. Sidorevich and N. A. Lukashevich	450	618
A Problem of Continuous Stabilization of Nonstationary Control Systems - B. V. Ulanov	453	622

Asymptotics of Integral Manifolds and the Decomposition of Singularly Perturbed Systems of Neutral Type - É. M. Fridman	457	626
PARTIAL DIFFERENTIAL EQUATIONS		
Some Parabolic and Elliptic Equations on Hilbert Space - O. D. Dyachkin	468	640
Existence of a Traveling-Wave Solution of a Belousov-Zhabotinskii System - Ya. I. Kanel'	478	652
Fractional-Order Diffusion - A. N. Kochubei	485	660
Properties of Generalized Solutions of Some Degenerate Parabolic Equations - P. I. Mysovskikh	493	670
Elliptic Inequalities for Thin Elastic Bodies with a Small Friction Coefficient - S. A. Nazarov	498	677
Global Hypocoercivity Property of a High-Order Differential Operator - Nguen Min' Chi	507	687
Propagation of Microlocal Smoothness of Solutions of Boundary-Value Problems for a Second-Order Hyperbolic Equation - S. E. Pastukhova	511	692
Analyticity of Linear One-Parameter Lie-Becklund Groups - S. S. Titov	516	699

Volume 26, Number 5, May, 1990

OBITUARY		
Nikolai Pavlovich Erugin	519	739

ORDINARY DIFFERENTIAL EQUATIONS

Uniqueness and Completeness Theorems for Expansions in Eigenfunctions and Associated Functions of a Nonlocal Sturm-Liouville Operator on a Finite Interval - N. S. Bozhinov	521	741
Singular Perturbations in a Stochastic Linear-Quadratic Optimal-Control Problem - V. Ya. Glizer	531	753
Solvability of a Class of Differential Equations in a Space of Functions Analytic in a Nonconvex Domain and Having a Given Growth Order - O. V. Gorina	536	760
Differential Equations for the Bernshtein-Szegő Orthogonal Polynomials - Z. S. Grinshpun	545	769
Asymptotics of Solutions of a Second-Order Semilinear Differential Equation - V. M. Evtukhov	551	776
Isomonodromic Deformations of Fuchsian Families of Systems of Linear Differential Equations with Bifurcating Poles - V. P. Kostov	561	787
Existence of a Hyperbolic Integral Set for a Special Periodic System - V. A. Pliss	571	800
Bifurcation Values of Parameters of the System $\dot{x} = y - \sum_{i=1}^3 a_i x^i$, $\dot{y} = a_{10}x + a_{01}y$ - S. E. Reshetnikov and G. S. Rychkov	579	808
Appearance of Integral Manifolds of Genus $n \geq 1$ and Homotopic Structures from Infinity - I. G. Rozet and V. V. Filinykh	584	814

PARTIAL DIFFERENTIAL EQUATIONS

Cauchy Problem for the Ordinary Korteweg-de Vries Differential Equation with Periodic Initial Data - P. E. Zhidkov	591	823
Applications of Pan'I Parabolic Potentials in Boundary-Value Problems of Mathematical Physics. I - L. I. Kamynin	596	829
Generalized Tricomi Problem in Laval-Nozzle Theory. I - K. B. Sabitov	607	841

Scattering Problem for a Schrödinger Operator with a Singular Potential in a Two-Dimensional Domain. I - V. S. Serov	616	851
Tricomi's Problem for a Model Equation System in Special Types of Domains - T. V. Chekmarev	624	860

INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS

Frequency Criteria for Dissipativity of Integral Equations - R. I. Alidema	633	873
Solvability of Singular Integral Equations with Involution and the Structure of the Space of Solutions of These Equations - A. A. Karelin	638	879
Linear Integral Equations of the Third Kind in Weighted L_2 Spaces. II - A. A. Kuleshov	648	890

Volume 26, Number 6, June, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Exponents of Solutions of Linear Functional-Differential Equations - L. M. Berezanskii	657	923
Boundary-Value Problem for a System of Fourth Order - S. A. Bespalova and Yu. A. Klovov	664	931
Exponentially Decreasing Perturbations, Preserving the Characteristic Exponents of a Linear Diagonal System - N. A. Izobov and O. P. Stepanovich	667	934
Question of Necessary Conditions for the Basis Property - N. B. Kerimov	675	943
Second-Order Optimality Conditions in Goursat-Darboux Systems in the Presence of Constraints - K. B. Mansimov	685	954
A Nonwandering Set of a Special Periodic System - V. A. Pliss	695	966
Rate of Equiconvergence for Differential Operators with Nonzero Coefficient of the $(n-1)$ -th Derivative - V. S. Rykhlov	704	975
Structure of the Set of Almost Instant Zero-Reachability - Yu. M. Semenov	716	989

PARTIAL DIFFERENTIAL EQUATIONS

Nonlocal Boundary Value Problems for an Elliptic-Parabolic Equation - D. Bazarov	724	998
Stationary Flows in Vortical Chambers - N. É. Keil'man	733	1007
Dirichlet Problem for Elliptic Equations in Domains with Conical Points - V. A. Kozlov	739	1014
Construction in Explicit Form of the Solutions of the Darboux Problem for the Telegraph Equation and Their Application to the Treatment of Integral Equations. I - K. B. Sabitov	747	1023
Differential Properties of the Extremals of Variational Problems, Occurring in Plasticity Theory - G. A. Seregin	756	1033
Pseudodifferential Operators on Non-Archimedean Spaces - A. Yu. Khrennikov	767	1044

NUMERICAL METHODS

Economical Schemes with Explicit Isolation of the Front for Multidimensional Problems with Free Boundaries. I - V. N. Abrashin and A. N. Yakubanya	777	1055
Application of D'Alembert's Method in Numerical Analysis - A. V. Fomenko	787	1067
Problem of a Piston in the Presence of the Motion of a Fluid with a Free Surface in the Channel of a Circular Section - M. V. Khazanov	793	1074

OBITUARY

Konstantin Sergeevich Sibirskii	800	1098
---------------------------------------	-----	------

Volume 26, Number 7, July, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Some Problems for an Ordinary Differential Equation Arising in Gas Dynamics - M. M. Ad'yutov, Yu. A. Klovov, and A. P. Mikhailov	803	1107
An Existence Theorem for a Solution of a Simulation Problem on a Half-Infinite Interval - V. V. Gudkov	806	1110
A Computer Method of Constructing Invariant Functions and Investigating Phase Portraits of Dynamical Systems - E. S. Pyatnitskii and L. B. Rapoport	811	1116

PARTIAL DIFFERENTIAL EQUATIONS

Monotonicity of a Solution of a Degenerate Quasilinear Parabolic Equation - V. A. Galaktionov and S. A. Posashkov	819	1127
The Existence of Solutions of a System of Nonlinear Schrödinger Equations - A. L. Domarkas and F. F. Ivanauskas	827	1137
Simulation Solutions and Inverse Problems for Quasilinear Parabolic Equations - A. D. Iskenderov and T. B. Gardashov	836	1148
Periodic Heat Flow in a Hollow Cylinder - R. S. Minasyan	840	1153
Application of the Separation of Variables for the Solution of Equations of Mixed Type - E. I. Moiseev	845	1160
Use of Pseudosymmetries for the Construction of Exact Solutions of Differential Equations - G. V. Nesterenko	855	1173

NUMERICAL METHODS

A Variant of the Variable-Direction Method of Solving Multidimensional Mathematical-Physics Problems. II - V. N. Abrashin and I. A. Dzyuba	860	1179
Convergence of the Spline-Collocation Method for Singularly Perturbed Boundary-Value Problems on Locally Uniform Meshes - I. A. Blatov and V. V. Strygin	869	1191
Iterative Methods of Decomposition of Overlapping Domains for Elliptic Boundary-Value Problems - P. N. Vabishchevich	875	1197
Investigation of the Nonlinear Evolution of Resistance Helical Modes by the Method of Projection on an Unstable Manifold - Yu. N. Dnestrovskii, D. P. Kostomarov, V. V. Nefedov, and A. M. Popov	884	1208
Uniform Stability of Difference Schemes for a Nonclassical Boundary-Value Problem with Variable Coefficients - N. I. Ionkin and D. G. Furlotov	891	1217
A Preconditioned Conjugate-Gradient Method for Solving Discrete Analogs of Differential Problems - I. E. Kaporin	897	1225
Numerical Determination of Stability Limits for High-Order Differential-Equation Systems with Time-Lag - S. V. Kartyshev and A. V. Shyarmokas	907	1236
A Class of Difference Schemes on Composite Meshes for Nonstationary Problems of Mathematical Physics - P. P. Matus	911	1241
Realization of Accurate Three-Point Difference Schemes for Second-Order Ordinary Differential Equations with Piecewise-Smooth Coefficients - A. A. Samarskii and V. L. Makarov	922	1254
Existence of Isolated Vortices in Zonal Flow - A. P. Smirnov and E. A. Sheina	930	1265

Volume 26, Number 8, August, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Behavior of Solutions of Hamilton Systems in the Neighborhood of an Equilibrium Position in Resonance Cases - M. A. Balitinov	937	1291
--	-----	------

A Generalized Contraction-Mapping Principle and Infinite Systems of Differential Equations - Sh. T. Dzhabbarov	944	1299
Conditions for Optimization in Nonlinear Inertial Control Systems with Time Lag - L. E. Zabello	953	1309
Special Nonlinear Differential Equations in Generalized Functions - S. T. Zavalishchin	959	1316
Conti's Problem for Intersections of L^p -Sets of Linear Systems - N. A. Izobov and R. A. Prokhorova	966	1323
Chain Prolongations in Typical Dynamical Systems - S. Yu. Pilyugin	976	1334
Linear Differential Equation Systems Regular on the Whole Real Line - A. M. Samoilenko and V. L. Kulik	979	1338
Perturbations of Linear Systems with Quasiperiodic Coefficients - A. F. Filippov	984	1343
Asymptotic Solutions of Differential Equation Systems in the Case of Purely Imaginary Eigenvalues - S. D. Furta	988	1348
Asymptotic Properties of Solutions of Nonautonomous Functional-Differential Equations - A. A. Shestakov, Yu. N. Merenkov, and M. M. Shatokhin	991	1351
Exponential Stability of Solutions of Multidimensional Differential Equations - B. A. Shcherbakov	998	1358

PARTIAL DIFFERENTIAL EQUATIONS

Mixed Problems on the Conjugation of Parabolic Systems of Different Orders with Nonlocal Boundary Conditions - É. A. Gasymov	1003	1364
A Generalized Dirichlet Problem with a Boundary Function from the Class L^p_ν - A. D. Nakhman	1012	1375
A Classical Solution of a Mixed Problem for a Singular Parabolic Equation - A. Yu. Sazonov ..	1019	1382
Removable Singular Sets for Semilinear Elliptic and Parabolic Equations - M. V. Tuvaev	1024	1388
A Tricomi Problem for a Second-Order Equation of Mixed Type in the Case of a Normal Domain - R. S. Khairullin	1031	1396

INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS

Invertibility of Multidimensional Singular Integral Operations on a Half-Space in Weighted Hölder Classes - S. K. Abdullaev and V. B. Vasil'ev	1040	1408
A Cauchy Problem for a System of Kinetic Equations for the Dynamics of a Radiating Gas - A. V. Kalinin and S. F. Morozov	1047	1416
Bounded and Almost-Periodic Solutions of Linear Integral Equations. II - V. F. Pulyaev	1053	1423
An Integral-Equation System from Diffusion Theory - S. I. Smagin	1060	1432
The Problem of the Existence of Optimal Controls - B. M. Yusifov and Z. A. Karagezov	1065	1437
Some Factorization Problems for Convolution Integral Operators - N. B. Engibaryan and L. G. Arabadzhyan	1069	1442

Volume 26, Number 9, September, 1990

ORDINARY DIFFERENTIAL EQUATIONS

A Comparison Method for Differential Equations with Impulse Actions - M. U. Akhmetov and N. A. Perestyuk	1079	1475
Some Identities for Eigenvalues and Eigenfunctions of a Class of Fourth-Order Differential Operators - R. Sh. Bakuradze and I. V. Stankevich	1086	1483
The Positiveness of Cauchy Functions and the Stability of Linear Differential Equations with After-Effect - L. M. Erezanskii	1092	1490
An Analog of the Newton-Diagram Method for a Class of Singularly Perturbed Differential Equations. II - G. S. Zhukova	1101	1500
"Inherited" Properties of Systems of Operational Equations - Yu. F. Korobeinik	1109	1510

Optimal Trajectories of Differential Inclusions in a Problem with Trajectories Bounded at Their Ends - L. I. Minchenko	1119	1521
Verification of the Transversality Condition by Symbolic-Dynamical Methods - G. S. Osipenko	1126	1528
A Spectral Problem Related to an Equation Concerning Sound Transmission in a Viscous Gas - V. N. Pivovarchik	1133	1536
A Class of Differential and Discrete Linear Games between Groups of Pursuers and Pursued - N. Yu. Satimov and M. Sh. Mamatov	1138	1541
Bounds for Solutions of an Ordinary Differential Equation with a Parameter and Functional Conditions - S. Ya. Yakubov and É. Ch. Ibragimov	1147	1551

PARTIAL DIFFERENTIAL EQUATIONS

An Inverse Problems for the Laplacian with a Continuous Potential - V. V. Dubrovskii and A. V. Nagornyi	1156	1563
Three-Point Boundary-Value Problem with an Integral Space-Variable Condition for a Second-Order Parabolic Equation - A. V. Kartynnik	1160	1568
Tikhonov Problem for Second-Order Linear Parabolic Equations - Ya. S. Kushitskii	1166	1575
Boundary-Value Problems for Third-Order Differential-Equation Systems - V. A. Malovichko	1175	1585
Some Integral Representations of Arbitrary Functions in Terms of Legendre Functions - A. I. Moshinskii	1179	1589
Solvability of Linear Differential Equations in Roumieu-Space Scales Constructed from a Given Unbounded Linear Operator - V. I. Nazarov	1186	1598
Bounds for Potentials with Oscillating Kernels Related to the Helmholtz Equation - V. A. Nogin and B. S. Rubin	1195	1608
Determination of a Parameter of an Evolution Equation - D. G. Orlovskii	1201	1614
Solvability of a Dirichlet Problem for Multidimensional Elliptic Systems - Sh. B. Khalilov	1207	1621
Uniqueness Classes of Generalized Solutions of Boundary-Value Problems for Parabolic Equations in Noncylindrical Unbounded Domains - A. E. Shishkov	1212	1627

Volume 26, Number 10, October, 1990

REVIEW

The Space of Dynamical Systems with the C^0 -Topology - S. Yu. Pilyugin	1219	1659
---	------	------

ORDINARY DIFFERENTIAL EQUATIONS

A Topological Method of Proving the Existence of Positive Periodic Solutions of Functional-Differential Equations - V. I. Borzdyko	1230	1671
Averaging of Functional-Differential Inclusions - A. I. Bulgakov	1236	1678
Strongly Invariant Sets and Periodic Solutions of a Differential Inclusion - Kh. G. Guseinov	1246	1690
Component-Wise Applicability of Chaplygin's Theorem to a System of Linear Differential Equations with Time-Lag - A. I. Domoshnitskii	1254	1699
Conditions for the Boundedness of Solutions of Certain Linear Systems - B. F. Ivanov	1259	1705
The Smoothness of Solutions of Differential Equations with a Parameter - V. I. Kachalov	1264	1711
Entire Functions Satisfying Linear Differential Equations - A. D. Kuzyk and M. N. Sheremeta	1268	1716
Expansion of an Arbitrary Function in a Series of Squares of Hermite Polynomials - N. N. Lebedev and I. P. Skal'skaya	1273	1722

Existence of Solutions of Boundary-Value Problems for Second-Order Equations - A. Ya. Lepin	1279	1729
Differentiable Dependence of Solutions of Differential Inclusions on Initial Data - L. I. Minchenko	1287	1737
Conditions under which a Center-Focus Problem Arises for an A_3 -System - A. P. Sadovskii ..	1293	1743
Control of the Probability of the Entry of a System into a Given Domain - I. P. Smirnov	1302	1753
Singular Extension of the Definition of Discontinuous Systems and Stability - L. M. Fridman	1307	1759

PARTIAL DIFFERENTIAL EQUATIONS

A Method of Solving Differential Equations with Operational Coefficients - A. V. Dedushev	1313	1766
An Operational Problem in Diffraction - M. V. Klibanov	1323	1777
Periodic and Bounded Solutions of Evolution Problems in the Mechanics of Viscoplastic Media - V. S. Klimov	1329	1784
Leading Approximations of the Averaging Method for Problems of Convection in a Field of Rapidly Oscillating Forces - V. B. Levenshtam	1337	1792
Completeness of Eigenvectors and Associated Vectors of a Linearized Problem in the Dynamics of Nuclear Reactors - R. S. Makin	1344	1800
Class of Elliptic Systems on the Plane with a Singular Point - A. Tungatarov	1349	1805

Volume 26, Number 11, November, 1990

REVIEWS

Nonlinear Analysis of the Dynamics and Control of Complicated Systems with Distributed Parameters - V. M. Matrosov	1359	1843
---	------	------

ORDINARY DIFFERENTIAL EQUATIONS

A Generalized Green's Operator and Solvability of Resonance Problems - A. R. Abdullaev and A. B. Burmistrova	1374	1860
Linear Impulse Functional-Differential Equations - A. V. Anokhin and E. Ya. Braverman	1378	1864
Functional-Differential Inclusions with Nonconvex Right Sides - A. I. Bulgakov	1385	1872
Stability of the Null Solution of a Second-Order Nonlinear Nonautonomous Equation - I. E. Vitrichenko	1391	1878
Development of Laws of Motion from Given Integrals - S. A. Grishin	1396	1884
Strongly and Weakly Invariant Sets with Respect to a Differential Inclusion and Their Derivatives and Applications in Control Problems - Kh. G. Guseinov and V. N. Ushakov	1399	1888
A Stability Problem in a Critical Case - V. É. Zhavnerchik	1406	1895
Properties of the Irregularity Coefficients of Linear Systems - N. A. Izobov and O. P. Stepanovich	1410	1899
Necessary and Sufficient Conditions for Optimization in a Time-Optimum Problem with Phase Restrictions - V. A. Komarov	1416	1906
Methods of Constructing Positional Controls and an Admissible Maximum Principle - V. I. Korobov and G. M. Sklyar	1422	1914
Theory of Controllability and the Completeness of Difference-Scheme Systems with Conditions Imposed on the Control and the Initial Conditions - S. A. Minyuk	1431	1924
A Guidance Game Problem for Systems Discontinuous in the Control - A. B. Pashaeu	1442	1936
Necessary Conditions for Optimization in a Problem of the Attainment of a Given Domain by a Controlled Random Process - I. P. Smirnov	1449	1943
Stability with Respect to some of the Variables of Systems Splitting in the Absence of Perturbations - G. V. Strogaya	1455	1949

PARTIAL DIFFERENTIAL EQUATIONS

Oscillation Properties of Solutions of Linear Differential Equations in Spaces of Constant Curvature - M. K. Bugir	1461	1956
Perturbations of a Nonlocal Problem for Differential Equations with Pseudodifferential Coefficients - V. S. Il'kiv	1466	1962
Theorems of the Phragmén-Lindelöf Type for Second-Order Linear Divergence Elliptic Equations with Positive Right Sides - F. I. Mamedov	1475	1971
Application of Weighted Hardy Inequalities for the Estimation of the Number of Eigenvalues of the Schrödinger Operator - V. M. Manakov	1481	1978
Integral Formulation of First and Second Boundary-Value Problems for a Second-Order Parabolic Equation - Z. A. Nakhusheva	1485	1982
A Dynamics Problem for an Incompressible Viscoelastic Fluid - G. A. Sviridyuk	1495	1992

Volume 26, Number 12, December, 1990

ORDINARY DIFFERENTIAL EQUATIONS

Stability in the Critical Case of One Zero Root and a Pair of Purely Imaginary Roots for One n-th Order Nonautonomous Quasilinear Equation - I. E. Vitrichenko	1501	2027
Formulas for Regularized Traces of Operators with Compact Resolvents - V. V. Dubrovskii	1522	2046
Convergence Speed of the Faedo-Galerkin Method for Quasilinear Nonstationary Operator Equations - A. G. Zarubin	1528	2051
Stability of Solutions to Inverse Problems for Nonlinear Distributed Systems. I - V. I. Maksimov	1537	2059
Convergence of the Method of Successive Approximations in Optimal Control Problems - V. A. Popov	1546	2068
Differential Inequalities in the Theory of Stability - O. P. Filatov	1556	2077

PARTIAL DIFFERENTIAL EQUATIONS

Integrability of One Class of Higher-Order Nonlinear Evolution Systems Admitting Nonsell-Adjoint Representation with Zero Curvature. I - V. A. Il'in and K. V. Mal'kov	1564	2085
Asymptotic Expansions for the Solutions of Boundary-Value Problems on Thermal Conductivity of Rotating Cylinders - M. I. Letavin	1568	2088
Existence of Solitary Waves in the Elasticoplastic Media - M. D. Martynenko and Nguen Dang Bik	1574	2093
Sufficient Conditions for Stable Existence of Solutions to Global Problems in Control Theory - V. I. Sumin	1579	2097
Systems of Equations for Gaussian Equilibrium - S. V. Temko and S. K. Kuz'min	1590	2109

INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS

A New Direct Method for Solving Integral Equations of the First Kind - N. S. Gabbasov	1604	2122
Uniform Invertibility of Regular Approximations for One-Dimensional Singular Integral Operators with Noncompact Perturbations - V. S. Pilidi	1610	2127
Functional Operators with Shifts - A. P. Soldatov	1620	2136

NUMERICAL METHODS

Difference Method for Solving One Problem in the Theory of Dispersion Waves - G. M. Amiraliev	1629	2146
Scheme for Fourth-Order Accuracy in a Spectral Problem with Variable Coefficients - V. G. Prikazchikov and Zh. P. Allanazarov	1638	2153

Principle of the Maximum for Difference Equations - A. A. Terteryan	1642	2157
OBITUARY		
Teimuraz Ambros'evich Chanturia	1648	2190
